**Re: Construction Notification
Case No. 2010-00301**

Dear Ms. Faulkner,

I very much regret the PSC was not notified prior to the beginning of our water system improvement project. I fully understand this is the responsibility of our water district. There was some confusion between myself and our engineer's regarding the notification. Please accept this letter and my apologies concerning this matter.

Notice to proceed with construction was dated September 2, 2010. The water main replacement is now at 50% complete and the plant renovation is approximately 25% complete. Please call or write with any further questions or concerns you may have and responses will be issued in a more timely manner.

Sincerely,

**Terry Goins
General Manager
Barkley Lake Water District**
